[REDACTED]

Honorable J. Hugo Aronson
Governor of Montana
State Capitol
Helena, Montana

Dear Governor Aronson:

The Board of Administration of the Public Employees' Retirement System of Montana herewith respectfully presents the Fourteenth Annual Report of its operations and progress during the fiscal year of 1958-59 in compliance with the provisions of Section 68-501 (c), Revised Codes of Montana, 1947.

We have enjoyed continued growth in our membership and assets during the past fiscal year and take great pleasure in noting that the Public Employees' Retirement System, in conjunction with the supplementary coverage provided under Social Security, contributes appreciably to the improvement of the personnel standards of the departments of the State of Montana and the member political subdivisions by retaining efficient, economical and stable public employees, by providing a retirement program which more adequately serves the needs of those public employees who become superannuated, disabled, or die in public service without any hardship or prejudice, and by providing such measure of security which will insure greater devotion to their public service during the most productive years of their lives.

We appreciate the opportunity of being able to serve in providing improved and more complete benefits to the faithful and deserving public employees and their beneficiaries, and trust that we may always be able to reward their devoted service to the State of Montana and its political subdivisions with the full measure of security that it merits.

Respectfully submitted,

BOARD OF ADMINISTRATION
PUBLIC EMPLOYEES' RETIREMENT SYSTEM

*The total expense figure does not include disbursements on investments as these disbursements are in part recoverable as accrued interest and the remainder are costs to earned interest income and are reflected in total yield from investments.

The comparison shown above indicates that 18.78% more was disbursed in all benefits during the fiscal year and that 13.76% more was held in assets. This increased our investments by 13.72% while the administrative expense advanced 9.13%. The ratio of administrative cost to assets has been decreased .000448% and the ratio of such expense to the total expenses decreased by .0048% indicating that an increased workload is being handled with a decrease in expense.
